

IEEE YP dinner

The IEEE Hungary Section Young Professionals Affinity Group organized a dinner on the 9th of December 2015 in Budapest to summarize the achievements of the last year and set goals for the next year.

The participants originate from various institutions and cities (e.g. Budapest, Sopron, Nyíregyháza), which indicates the broad coverage of IEEE YP in Hungary.

We have reviewed the events of 2015 and the participants agreed that a more active participation is needed in order to show efficiently the benefits of IEEE YP membership and to gain more interested members to our group.

The main task of IEEE YP should be the organization of various events with the collaboration of other IEEE chapters. This seems also important because of networking aspects, especially putting emphasis on the connection with existing student chapters.

We also agreed to create promotion materials (e.g. leaflet, website, LinkedIn group) in order to gain more attention among young professionals. The foundation of a new price was also discussed, which details will be elaborated later in 2016.
